

## Criar uma política de acesso condicional baseada em local

Esse tipo de política é útil para permitir ou bloquear acesso com base na localização (por exemplo, só permitir login de Angola ou bloquear logins de fora do país).

### Pré-requisitos

- Licença **Microsoft Entra ID P1** ou superior.
- Permissão de **Security Administrator** ou **Global Administrator**.
- Ter as localizações de IP definidas no portal (**Named Locations**).

### 1. Criar localização nomeada (Named Location)

Vá para **Microsoft Entra admin center** → **Acesso Condicional** → **Localizações nomeadas**.

Escolha:

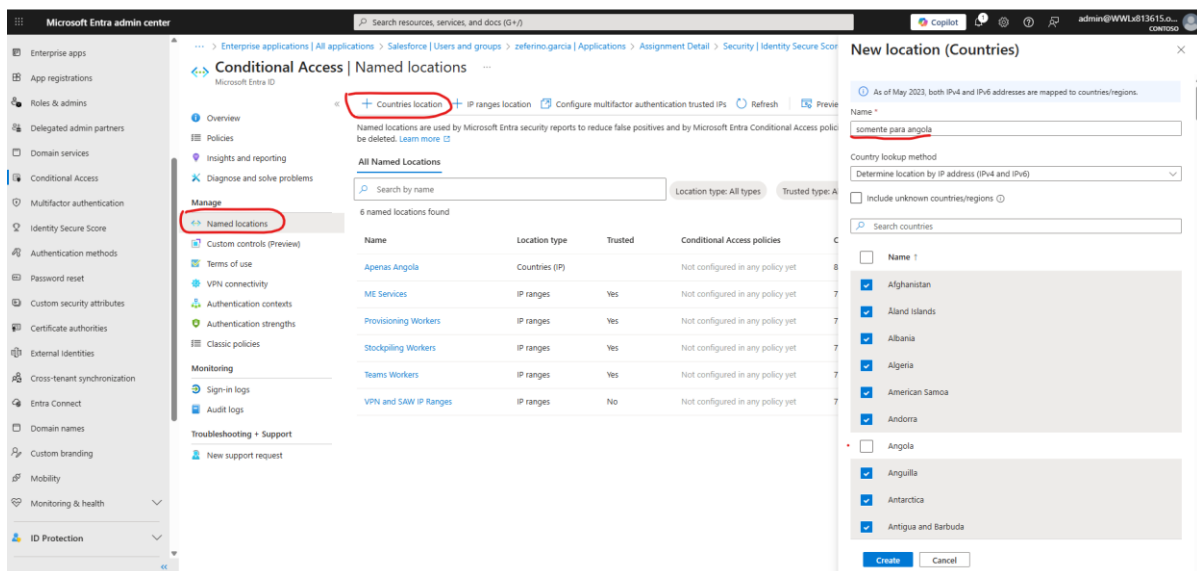

- **Faixa de IPs** ou **Localização baseada em país/região** (ex.: Angola).

Nesse caso escolherei localização baseada em país, o nome da política: **Somente para angola**

Clique em **+ localização dos países**

Da um nome para nossa localização

Selecione todos os países exceto **Angola**

## 2. Criar a política de acesso condicional

No portal Entra, vá em Segurança → Acesso Condicional → Políticas.

Clique em + Nova política.

Nome da política:

Ex.: **Bloquear logins fora de Angola.**

- **Usuários/grupos** → selecione os usuários ou grupos a quem a política se aplica.

No nosso caso a politica vai se aplicar a todos os usuarios

- **Aplicativos ou ações** → escolha quais apps (ou todos).

... > Salesforce | Users and groups > zeferino.garcia | Applications > Assignment Detail > Security | Identity Secure Score > Ex

## New

Conditional Access policy

Control access based on Conditional Access policy to bring signals together, to make decisions, and enforce organizational policies. [Learn more](#)

Control access based on who the policy will apply to, such as users and groups, workload identities, directory roles, or external guests. [Learn more](#)

Not configured

Include Exclude

☐ None

☒ All users

☐ Select users and groups

⚠ Don't lock yourself out! This policy will affect all of your users. We recommend applying a policy to a small set of users first to verify it behaves as expected. [Learn more](#)

## Condições:

- Em **Localizações**, marque **Configurar** → **Sim**.

Escolha:

- **Inclui:** *Qualquer localização* ou países específicos.

## Acesso:

- Escolha **Bloquear acesso** ou **Conceder acesso** com exigência de MFA

Em Enable policy clique em ON e crie a política

The image shows two screenshots from the Microsoft Entra admin center. The top screenshot is the 'New' Conditional Access policy page. It shows the 'Name' field set to 'Bloquear logins fora de Angola'. The 'Assignments' section shows 'Users' as 'All users' and 'Target resources' as '1 resource included'. The 'Access controls' section shows 'Grant' as '0 controls selected'. The 'Enable policy' toggle is set to 'On'. The 'Create' button is highlighted with a red circle. The bottom screenshot is the 'Conditional Access | Policies' overview page. It shows a table with 1 policy found, 'Bloquear logins fora de Angola', created by 'USER', with a state of 'Report-only'. The 'Policy name' column is highlighted with a red circle.
